

Academic teaching

University courses

Summer semester 2021	Comparative data analysis with structural equation models in R	University of Cologne
Winter semester 2020/21	Cross-cultural perspectives on deviance and crime Life-course perspectives on deviance and crime	University of Cologne
Summer semester 2020	Analysis of longitudinal data	University of Cologne
Winter semester 2019/20	Analyzing comparative data using structural equation modeling*	University of Cologne
Summer semester 2019	Analysis of longitudinal data (substitute professorship empirical social and economic research, formerly Prof. Dr. H.-J. Andreß)	University of Cologne
Winter semester 2018/19	Analyzing comparative data using structural equation modeling*	University of Cologne
Summer semester 2018	Advanced structural equation modeling*	University of Cologne
Winter semester 2017/18	Cross-cultural perspectives on deviance* Application seminar: Youth and deviance ⁺	University of Cologne
Summer semester 2017	Anomia and disintegration ⁺ Values, attitudes, and behavior ⁺	University of Cologne
Spring semester 2016	Methodical internship ⁺ Cross-country comparisons of values and attitudes using SEM (with E. Davidov)*	University of Zurich
Fall semester 2015	Disintegration and anomia ⁺ Multivariate data analysis*	University of Zurich
Spring semester 2015	Individualistic sociology and social psychology ⁺ Measurement and causal models in comparative research (with E. Davidov)*	University of Zurich
Fall semester 2014	Multivariate data analysis*	University of Zurich
Spring semester 2014	Measurement and causal models (with E. Davidov)*	University of Zurich
Fall semester 2013	Multivariate data analysis*	University of Zurich

Winter semester 2010/11	Social control, security, and the penal system (with K. Boers) ⁺	University of Münster
Summer semester 2010	Juvenile delinquency in international perspective (with K. Boers)*	University of Münster
Winter semester 2009/10	Introduction to data analysis with <i>Mplus</i> *	University of Bielefeld
Summer semester 2009	Surveillance and control (with K. Boers) ⁺	University of Münster
Winter semester 2008/09	Theories of crime and their empirical assessment (with K. Boers) ⁺	University of Münster
Summer semester 2008	Juvenile delinquency - International perspectives (with K. Boers)*	University of Münster
Winter semester 2006/07	Multivariate data analysis with SPSS ⁺	University of Bielefeld

Summer schools and external courses

2021	Confirmatory factor analysis and structural equation modelling (with P. Schmidt)*	Essex Summer School in Social Science Data Analysis
2017	Structural equation modeling for longitudinal and panel data (with Georg Kessler)*	6th GESIS summer school in survey methodology
2016	Testing survey data for measurement equivalence across countries and time (with E. Davidov, P. Schmidt)*	5th GESIS summer school in survey methodology
2015	Testing survey data for measurement equivalence across countries and time (with E. Davidov, P. Schmidt)*	4th GESIS summer school in survey methodology
2015	Longitudinal data analysis (2-day course, with P. Schmidt)*	University of Hamburg

* Course in English language

+ Course in German language
